Dear John:

Since speaking to you the other day I have had a chance to review the matter of the USS SAN JOAQUIN COUNTY. Admirals Blouin and Calvert have been extremely helpful in filling in the background of this difficult question.

I believe the key issue involved here is the reaction we can anticipate in Japan to a discovery of this arrangement. I am particularly troubled by the effect that such a discovery might have on any renegotiation of the Security Treaty in 1970. While I appreciate the case that can perhaps be made that this arrangement is consistent with the understandings worked out with the Japanese in 1959, I do not believe that a technical legal argument of this type will go far toward mitigating the political problems if the arrangement is exposed through accident to the vessel or otherwise. For these reasons I suggest that we examine alternatives to the current arrangement and move to reduce this risk to our relations with Japan as soon as possible.

Sincerely,

/s/ U. Alexis Johnson

Dear John:

Thanks very much for your letter of July 2 with regard to the barge. This very satisfactorily disposes of what could have become a difficult problem. I would assume that State would be informed or consulted with respect to the movement of the barge back to Japan in the event an alert or period of rising tensions should make this course desirable.

Sincerely,

U. Alexis Johnson
